

Table 3-1

**Sampling Locations And Rationale
Former Incinerators, Buildings 4428 and 4430, Parcel 96(7)
Fort McClellan, Calhoun County, Alabama**

Sample Location	Sample Media	Sample Location Rationale
GSBP-96-MW01	Groundwater	Monitoring well located in the east of the parcel. Topographically upgradient of Building 4428.
GSBP-96-MW02	Groundwater	Monitoring well located in the east of the parcel. Topographically upgradient of Buildings 4428 and 4430.
GSBP-96-MW03	Groundwater	Monitoring well located in the center of the parcel near Building 4430.
GSBP-96-MW04	Groundwater and subsurface soil	Monitoring well and subsurface soil located in the west of the parcel. Topographically downgradient of Buildings 4428 and 4430.
SI08-GWS01	Groundwater	Monitoring well located next to the concrete slab adjacent to the northeast side of Building 4428.
SI08-GWS02	Groundwater	Monitoring well located in the center of the parcel, next to the concrete slab adjacent to the southeast side of Building 4430.
SI08-GWS03	Groundwater	Monitoring well located in the west of the parcel adjacent to Building 4430.
SI08-SS01	Surface soil, Subsurface soil	Surface soil and subsurface soil samples located in the west of the parcel adjacent to Building 4430.
SI08-SS02	Surface soil, Subsurface soil	Surface soil and subsurface soil samples located in the north of the parcel, to the southwest of the coal storage bin.
SI08-SS03	Surface soil, Subsurface soil	Surface soil and subsurface soil samples located in the north of the parcel, near the coal storage bin.
SI08-SS04	Surface soil, Subsurface soil	Surface soil and subsurface soil samples located in the south of the parcel, adjacent to the south side of Building 4428.
SI08-SS05	Surface soil, Subsurface soil	Surface soil and subsurface soil samples located in the south of the parcel, adjacent to the southwest of Building 4428.
SI08-SS06	Surface soil, Subsurface soil	Surface soil and subsurface soil samples located within Building 4428.
SI08-SS07	Surface soil, Subsurface soil	Surface soil and subsurface soil samples located in the east of the parcel, next to the concrete slab adjacent to the northeast side of Building 4428.
SI08-SS08	Surface soil, Subsurface soil	Surface soil and subsurface soil samples located in the south central part of the parcel, next to the northwest side of Building 4428.
SI08-SS09	Surface soil, Subsurface soil	Surface soil and subsurface soil samples located in the center of the parcel, next to the southern side of Building 4430.
SI08-SS10	Surface soil, Subsurface soil	Surface soil and subsurface soil samples located in the center of the parcel on the site of Building 4430.
SI08-SS11	Surface soil, Subsurface soil	Surface soil and subsurface soil samples located in the north central part of the parcel adjacent to the northern side of Building 4430.
